

Ficha de trabajo

Siluetas

La realización de estas actividades consigue que nuestros alumnos fijen su atención en un objeto determinado analizando su contorno de tal forma que aprenden a diferenciar los objetos sin estar dibujado con todas sus características solo el contorno. Podemos emplear para estas actividades personajes de comic o dibujos animados de los que ven habitualmente en casa para motivarlos.

Para trabajar la percepción visual vamos a trabajar con siluetas para ello hemos preparado un video que debemos de visualizar y a continuación trabajaremos esta ficha.

En el video vamos a visualizar las siluetas de diferentes animales salvajes y cuando nuestros alumnos hayan aprendido la relación entre el animal salvaje y su silueta pasamos a trabajar con nuestra ficha en formato papel.

Dirección del video.
