¿Cuánto vale cada figura?

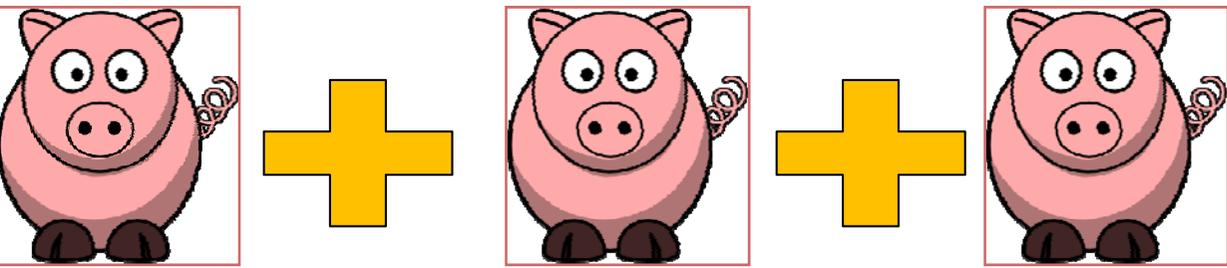

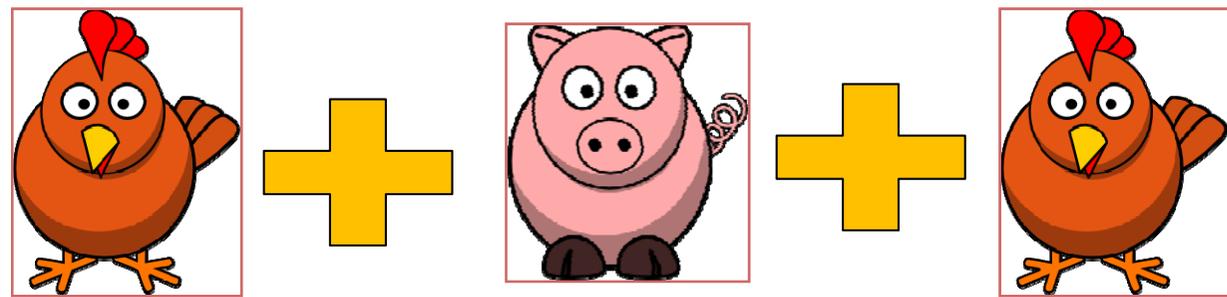

$$\text{Owl} + \text{Robot} + \text{Robot} = 13$$

$$\text{Owl} + \text{Owl} + \text{Owl} = 15$$

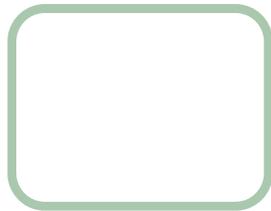

$$\text{Robot} + \text{Elephant} + \text{Elephant} = 8$$

$$+ + = 6$$

$$+ + = 12$$

$$+ + = 15$$

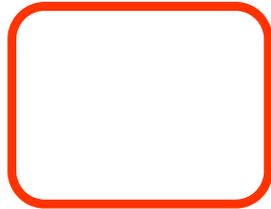

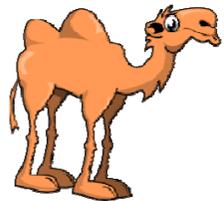

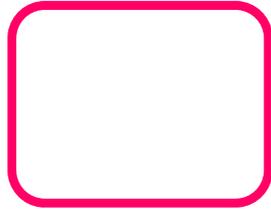

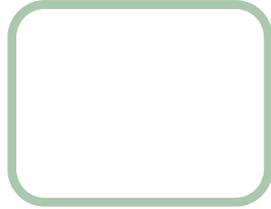

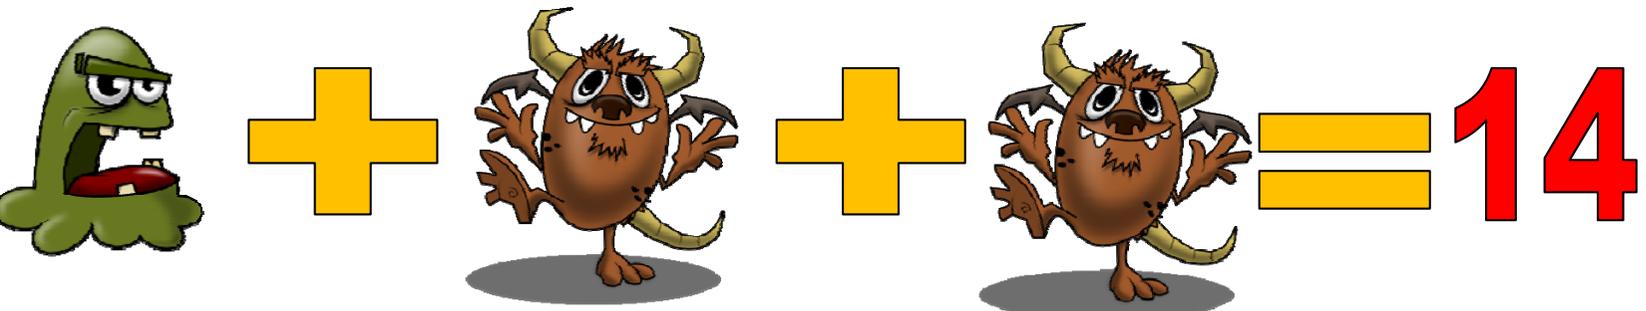

$$\text{Bee} + \text{Owl} + \text{Owl} = 14$$

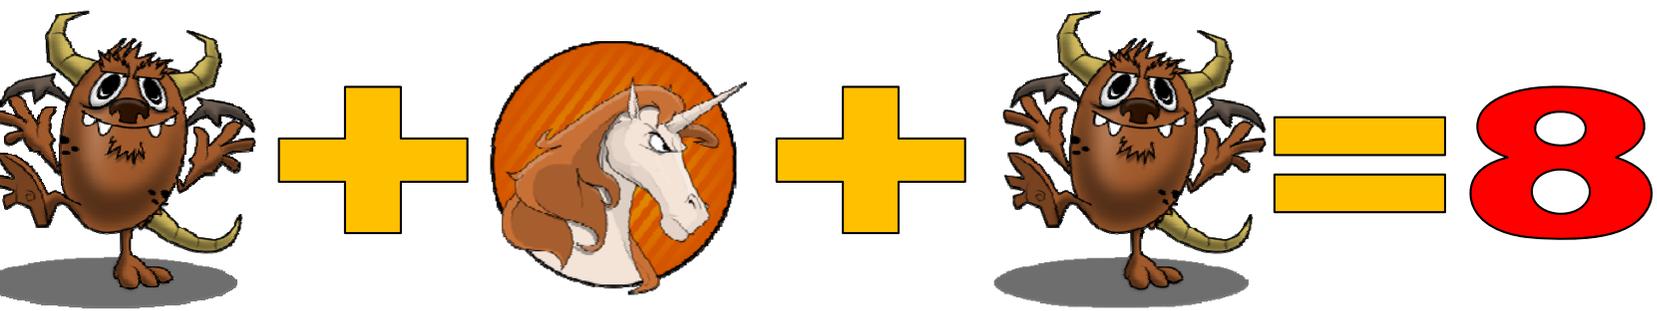

$$\text{Bee} + \text{Bee} + \text{Camel} = 17$$

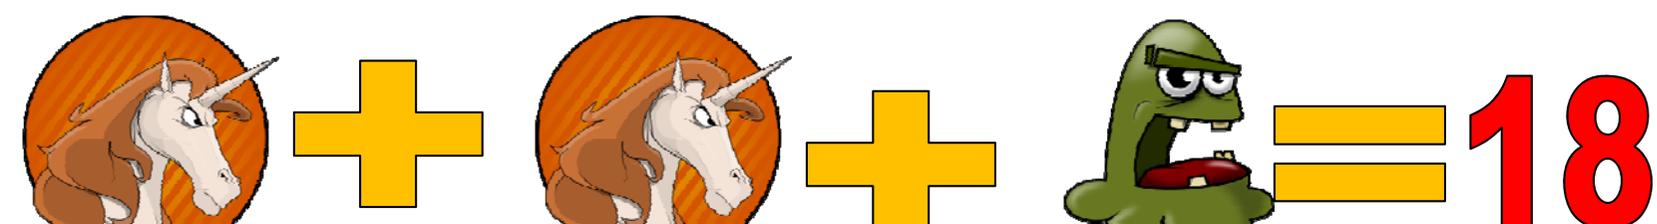

$$\text{Owl} + \text{Camel} + \text{Camel} = 5$$

$$\text{Bee} + \text{Owl} + \text{Camel} = 10$$

$$\text{Green Monster} + \text{Brown Monster} + \text{Brown Monster} = 14$$

$$\text{Brown Monster} + \text{Unicorn} + \text{Brown Monster} = 8$$

$$\text{Unicorn} + \text{Unicorn} + \text{Green Monster} = 18$$

Three brown, horned monsters with large eyes and small fangs are arranged in a row. Each monster is standing on two legs and has its arms outstretched. They are connected by yellow plus signs and an equals sign.

$$+ + = 9$$

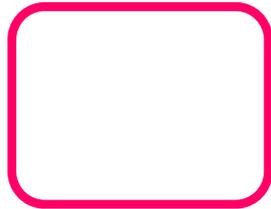

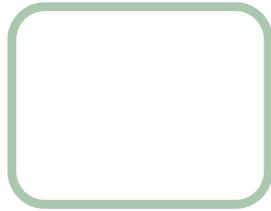

A brown, horned monster is followed by a green, blob-like monster with a wide, toothy mouth and a small black mark on its forehead. This is followed by another brown, horned monster. They are connected by yellow plus signs and an equals sign.

$$+ + = 10$$

A blue whale is followed by a green, blob-like monster with a wide, toothy mouth and a small black mark on its forehead. This is followed by another green, blob-like monster. They are connected by yellow plus signs and an equals sign.

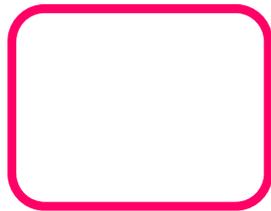

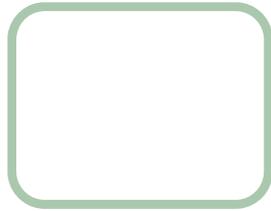

$$+ + = 9$$

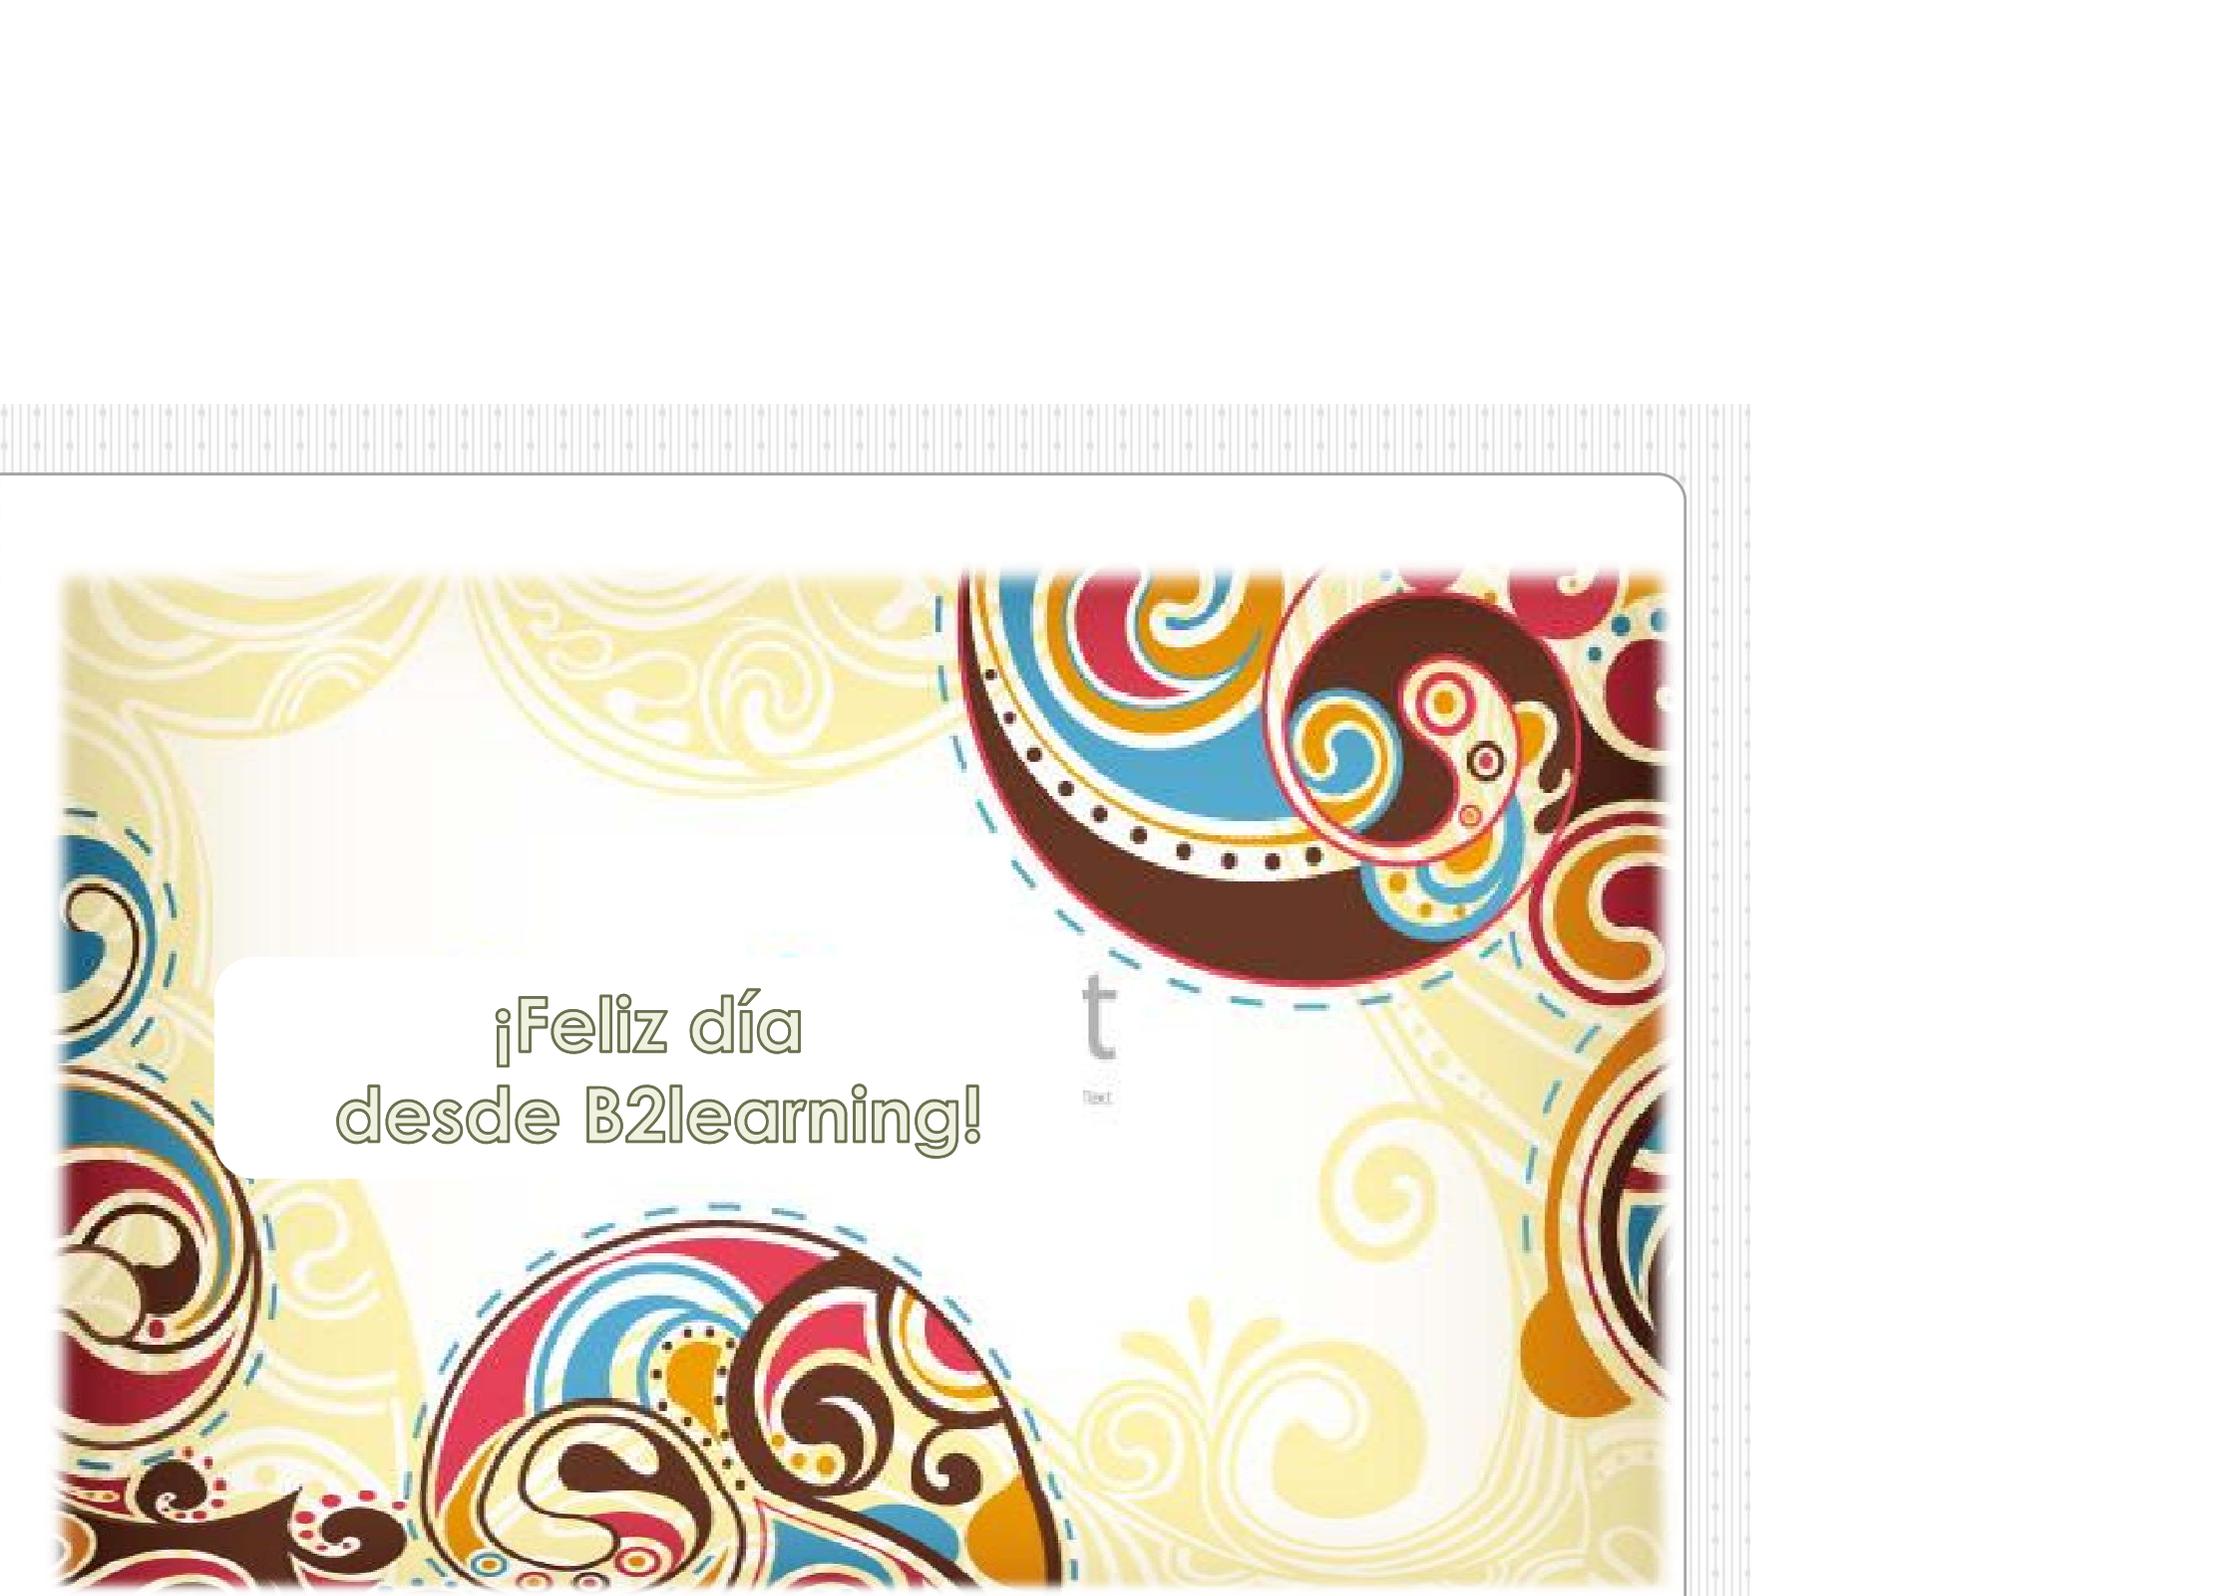

$$\text{Monster} + \text{Alien} + \text{Monster} = 25$$

$$\text{Whale} + \text{Whale} + \text{Monster} = 10$$

$$\text{Alien} + \text{Alien} + \text{Alien} = 15$$
