A black and white line drawing of a cartoon character. The character has a very large, round head with a simple face featuring two small dots for eyes and a wide, toothy grin. A single line of speech bubbles extends from the character's mouth. The first speech bubble contains the letter 'a'.

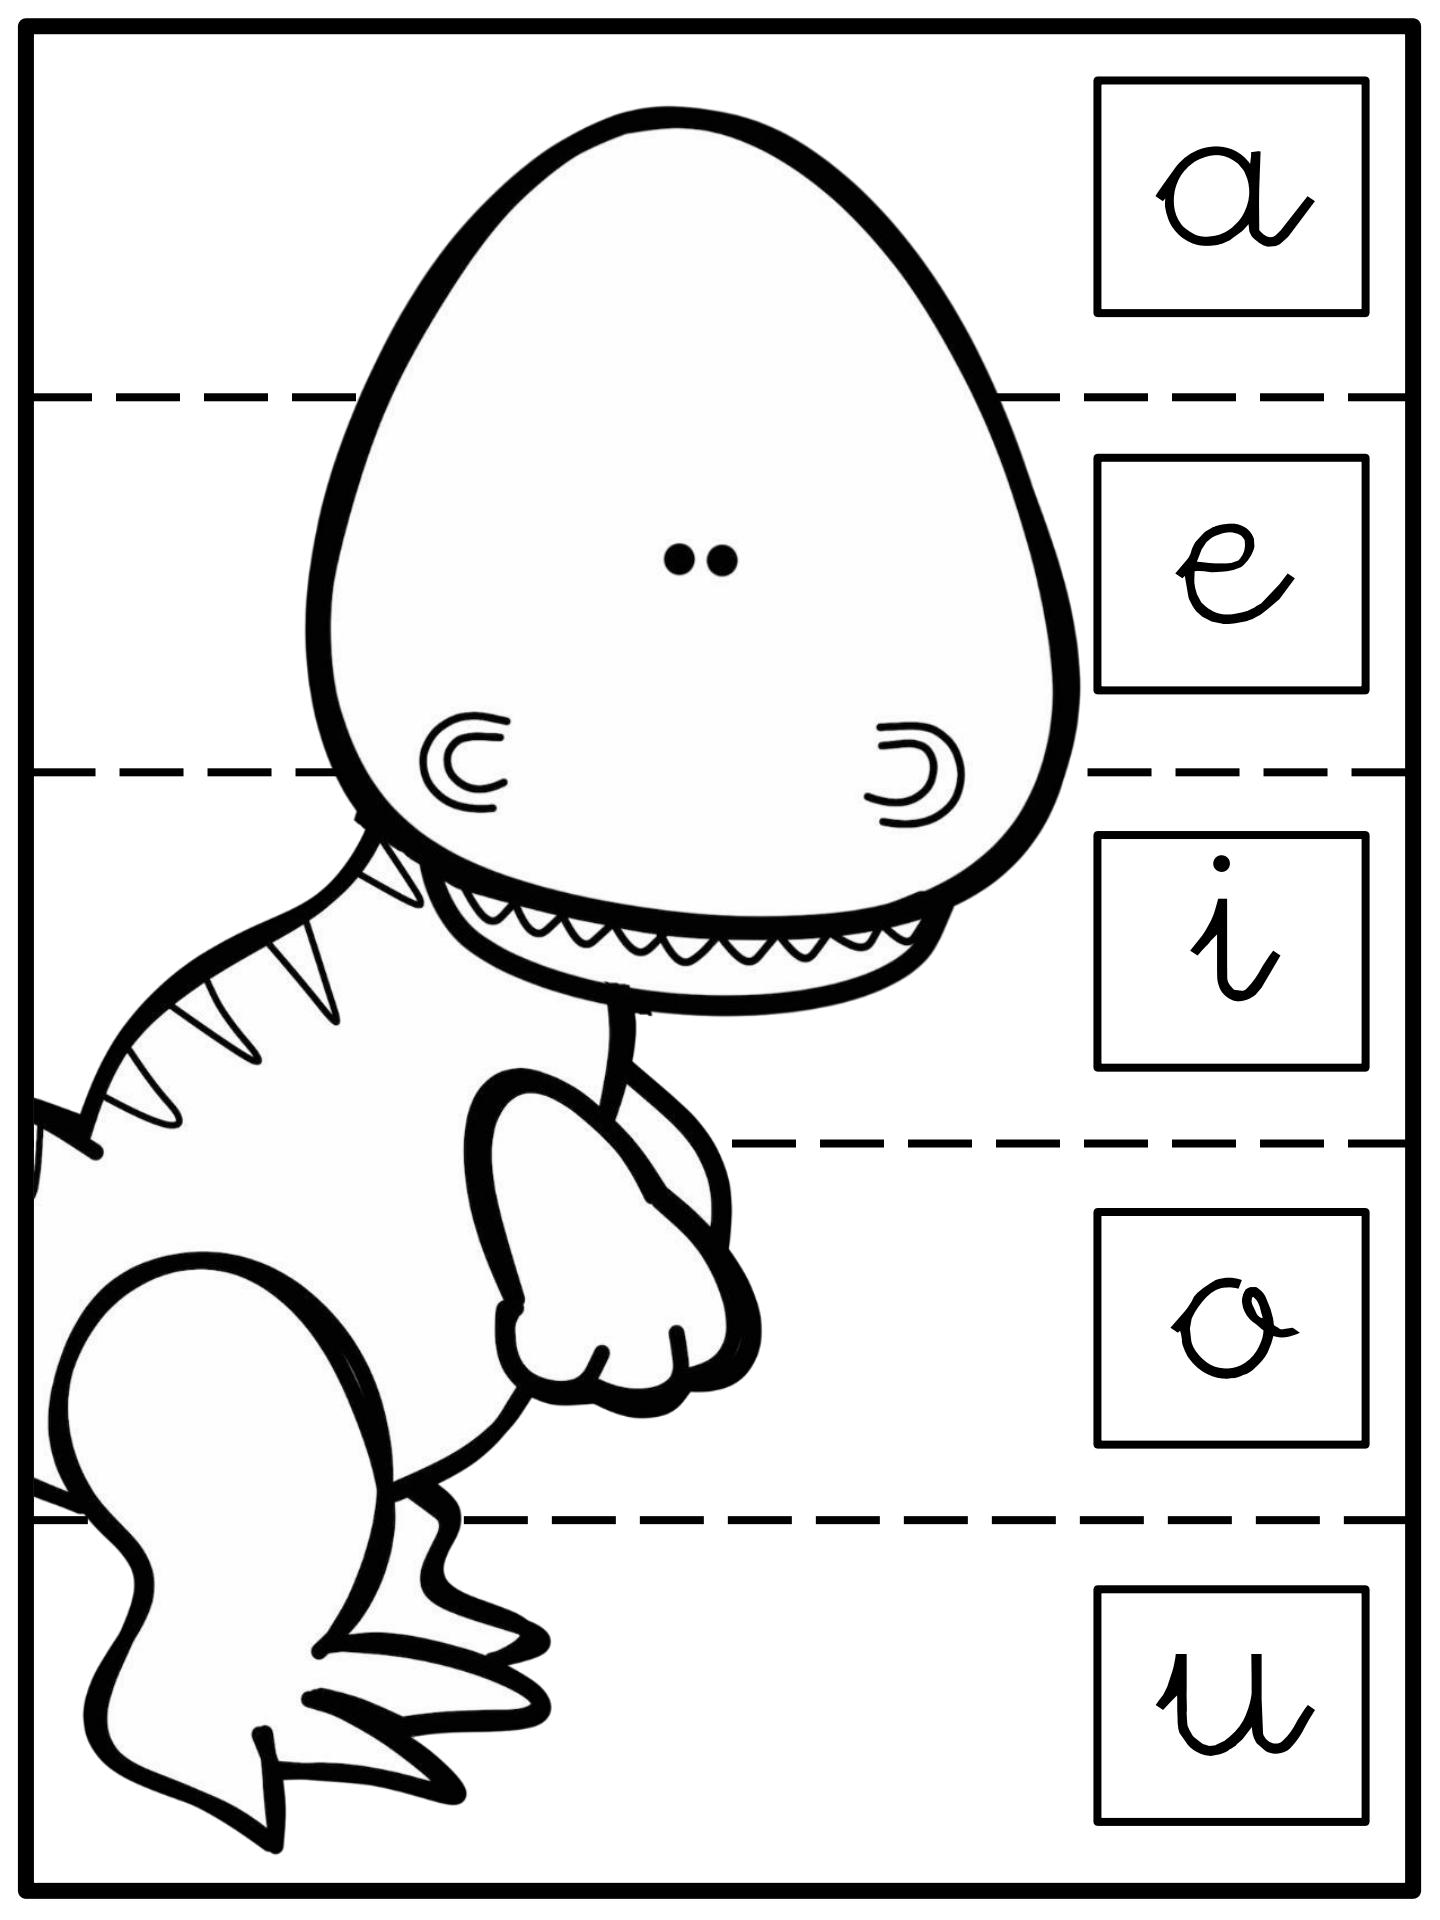

a

A black and white line drawing of the same cartoon character. This time, the speech bubble contains the letter 'e'.

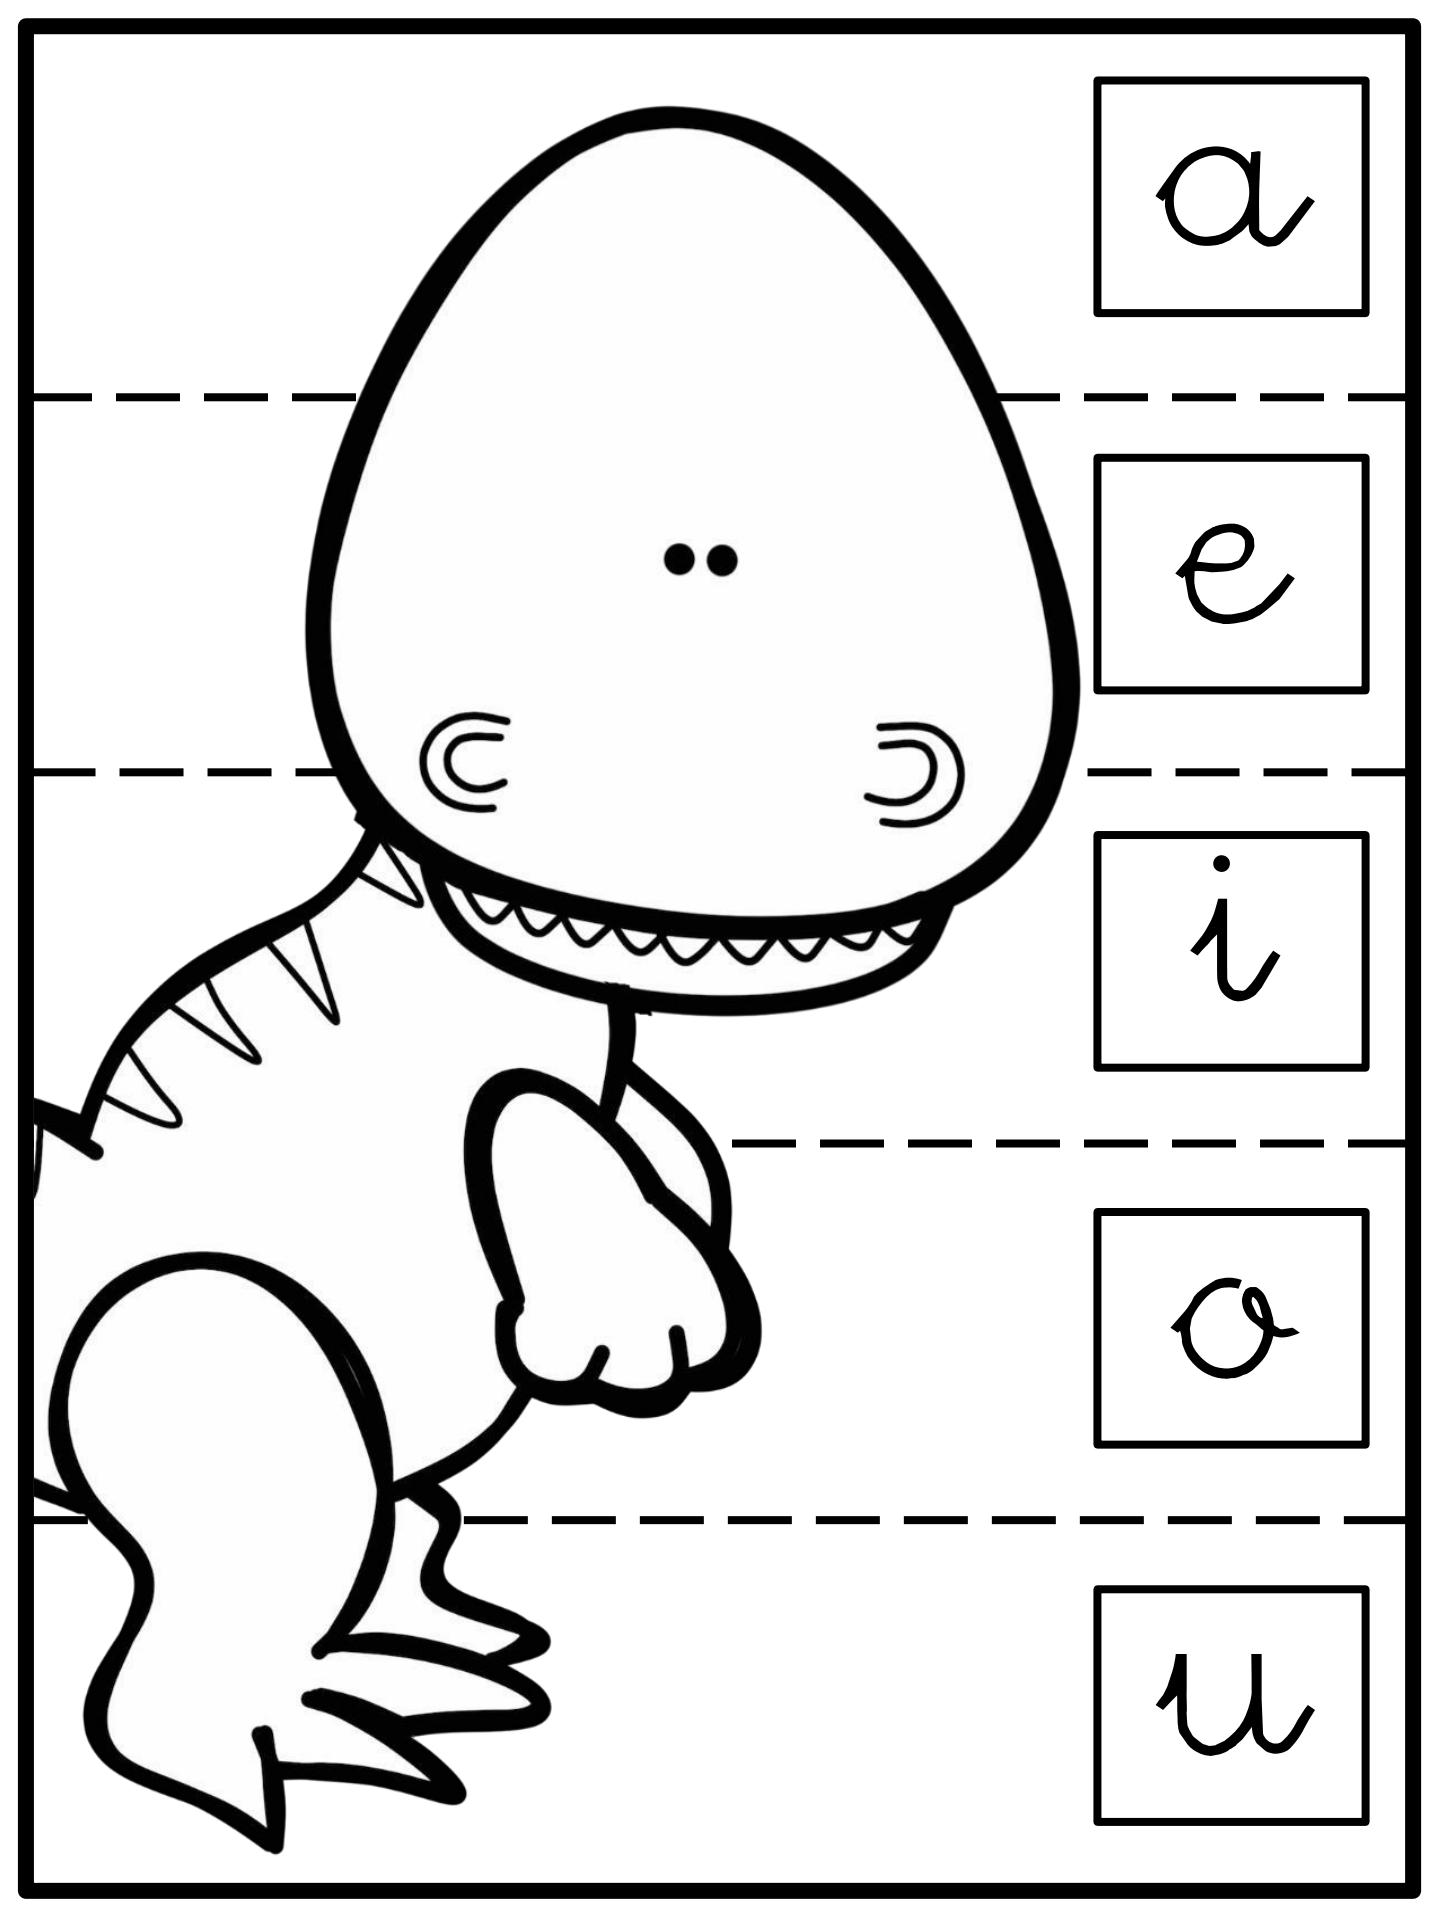

e

A black and white line drawing of the cartoon character. The speech bubble contains the letter 'i'.

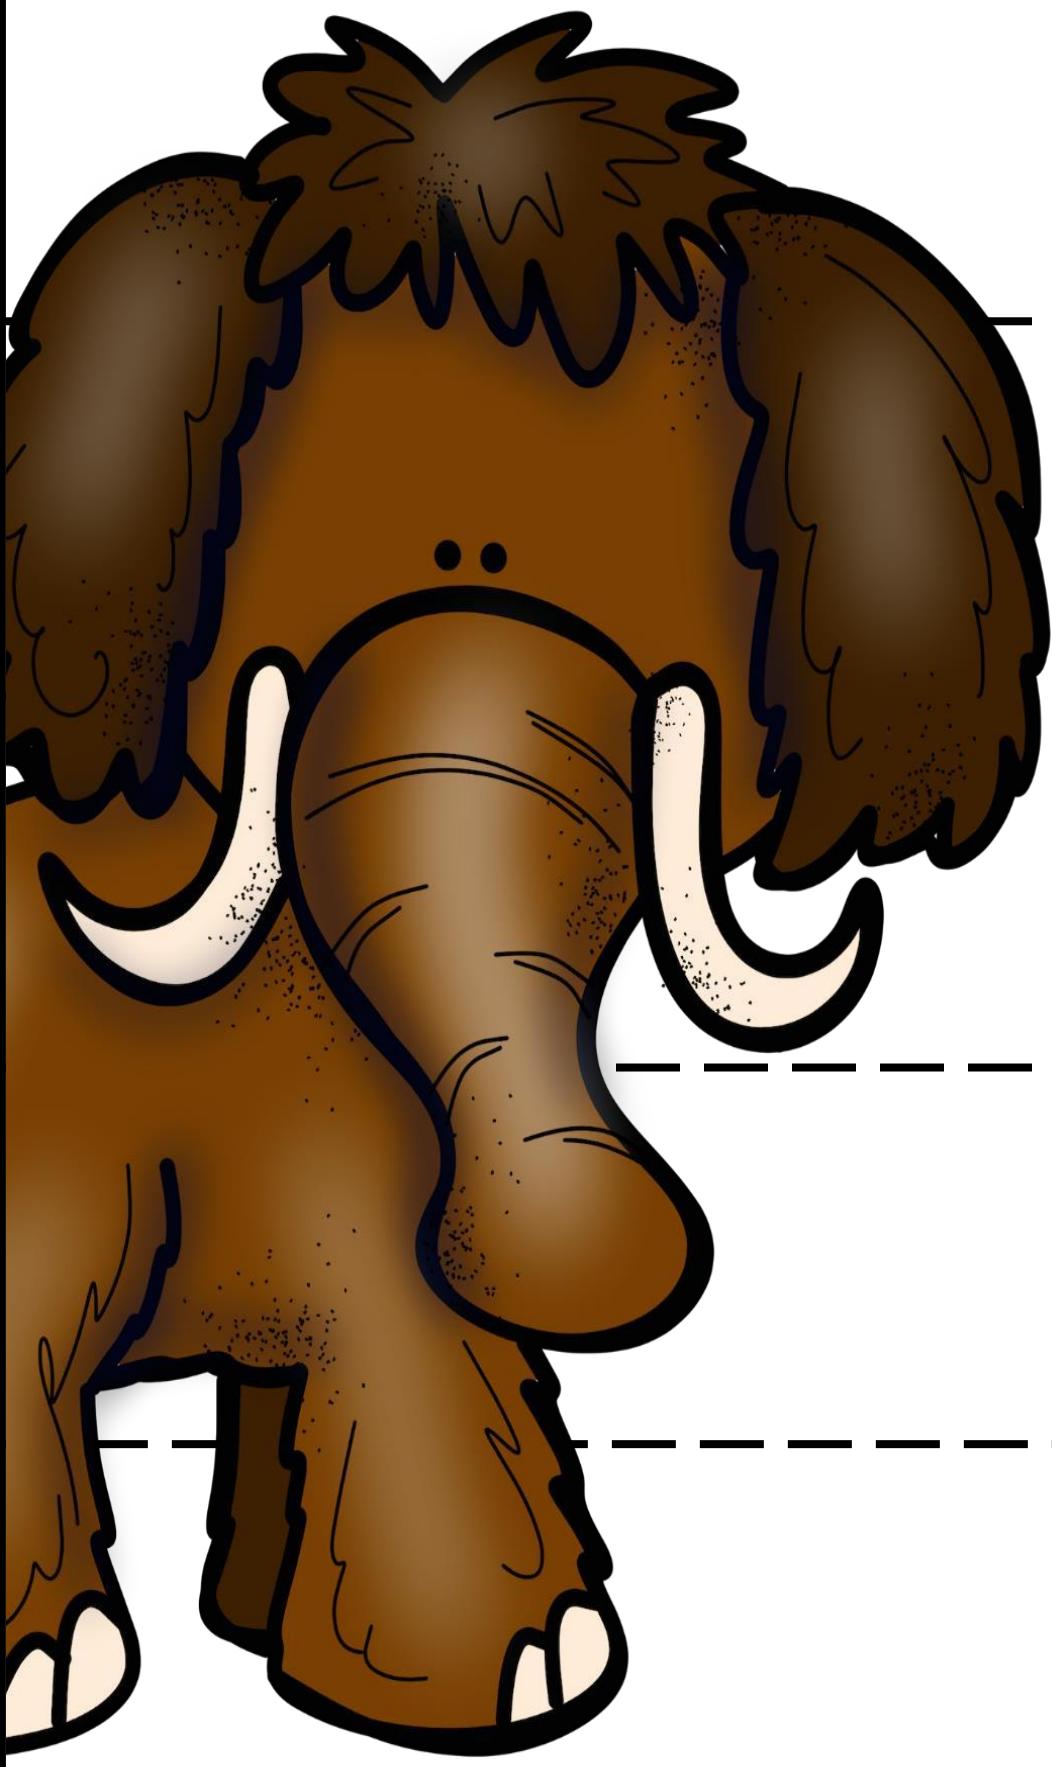

i

A black and white line drawing of the cartoon character. The speech bubble contains the letter 'o'.

o

A black and white line drawing of the cartoon character. The speech bubble contains the letter 'u'.

u

A cartoon illustration of a brown horse's head and front legs. The horse has a dark brown mane and tail, and its legs are also dark brown. It is facing slightly to the right.

A black and white line drawing of a caterpillar with a smiling face, arms, and legs. It has a large, expressive head with a wide mouth and two small eyes. A speech bubble originates from its mouth, containing the letter 'a'. The caterpillar's body is segmented, and it has several thin, wavy antennae-like appendages extending from its head area.

A black and white line drawing of a cartoon character. The character has a large, round head with two small ears and two dots for eyes. It has a wide, toothy grin showing many sharp, triangular teeth. Its body is simple with a single line for an arm and a hand with four fingers. The character is positioned in front of five horizontal dashed lines. To the right of each dashed line is a rectangular box containing a lowercase vowel: 'a' in the top box, 'e' in the second, 'i' in the third, 'o' in the fourth, and 'u' in the bottom box.
