A large circle is divided into eight equal segments by a central circle and four radial lines. In the center of the large circle is a large purple number '3'. Each of the eight surrounding segments contains a different visual representation of a number:

- Top-left: A ten-frame with five red dots in the top row.
- Top-right: A yellow square with three black dots.
- Right: A ten-frame with three orange dots in the top row.
- Bottom-right: A green domino with three dots on the left half and two dots on the right half.
- Bottom: Three vertical pink lines.
- Bottom-left: A green square with five black dots.
- Left: A pink domino with two dots on the left half and one dot on the right half.
- Far-left: A hand showing three fingers.

A large circle is divided into eight equal segments by a central circle and four radial lines. In the center of the large circle is a large green number '5'. Each of the eight segments contains a different visual representation of a number:

- Top-left: A ten-frame with five red dots in the top row.
- Top-right: A hand showing three fingers.
- Right: Five green tally marks.
- Bottom-right: A ten-frame with five blue dots in the top row.
- Bottom: An orange die showing five dots.
- Bottom-left: A yellow domino showing five dots (two on the left, three on the right).
- Left: Five orange tally marks.
- Top: A hand showing five fingers.

A circular activity with a central green letter 'q'. The circle is divided into eight segments, each containing a different numerical representation:

- Top-left: Two yellow dice. The left die shows 5 dots, and the right die shows 2 dots.
- Top-right: Two hands. The left hand is open with 5 fingers, and the right hand is in a fist with 3 fingers extended.
- Right: A blue domino with 5 dots on the left half and 2 dots on the right half.
- Bottom-right: Two pink dice. The top die shows 5 dots, and the bottom die shows 4 dots.
- Bottom: A ten-frame with 5 orange dots in the top row and 1 orange dot in the bottom-left corner.
- Bottom-left: Two groups of blue lines. The first group has 5 vertical lines and 1 diagonal line, totaling 6. The second group has 5 vertical lines.
- Left: Two hands. The top hand is open with 5 fingers, and the bottom hand is in a fist with 5 fingers extended.
- Top-left (inner): A ten-frame with 9 red dots in two rows of five.

12

Three orange dice showing 5, 5, and 2 dots.

Two groups of blue tally marks: one group of 6 and one group of 6.

Three groups of green tally marks: two groups of 4 and one group of 4.

Two orange ten-frames: the first is full with 10 dots, the second has 2 dots in the top row.

Two blue ten-frames: the first is full with 10 dots, the second has 4 dots in the top row.

Two dominoes: one purple with 6 dots and one orange with 6 dots.

Two dominoes: one purple with 6 dots and one yellow with 6 dots.

Three hands: one showing 5 fingers, one showing 5 fingers, and one showing 2 fingers.

The image shows a circular activity board with the number 13 in the center. The board is divided into eight segments, each containing a different set of counting objects:

- Top-left: A 2x5 grid of red dots (10) and a 1x5 grid with 3 red dots (3).
- Top-right: Three pink dice showing 5, 5, and 3 dots.
- Right: A 2x5 grid of blue dots (10) and a 1x5 grid with 5 blue dots (5).
- Bottom-right: Two dice, one purple (5 dots) and one pink (3 dots).
- Bottom: Three hands showing 5, 5, and 3 fingers.
- Bottom-left: Three yellow dice showing 5, 5, and 4 dots.
- Left: Two groups of blue tally marks, one with 5 marks and one with 3 marks.
- Top: A 2x5 grid of red dots (10) and a 1x5 grid with 3 red dots (3).

The image shows a large circle divided into six segments. In the center of the circle is the number 14 in a large, blue, sans-serif font. Each segment contains a different visual representation of a number:

- Top-left segment: Two dominoes. The left one is purple with 6 dots, and the right one is yellow with 2 dots. Total: 8.
- Top-right segment: Two ten-frames. The top one is full of 10 green dots, and the bottom one has 5 green dots. Total: 15.
- Right segment: Three blue dice. The top-left die shows 5 dots, the top-right die shows 5 dots, and the bottom die shows 4 dots. Total: 14.
- Bottom-right segment: Three hands. Two hands are fully open (showing 5 fingers each), and one hand is showing 1 finger. Total: 11.
- Bottom segment: Two ten-frames. The top one is full of 10 orange dots, and the bottom one has 4 orange dots. Total: 14.
- Bottom-left segment: Two groups of red tally marks. Each group has two vertical lines crossed by a diagonal line. There are two such groups, and a third group with four vertical lines. Total: 14.

A large circle is divided into six segments. In the center of the circle is the number 15 in a large purple font. Each segment contains a different set of visual representations:

- Top-left: Three hands. Two are open (showing 5 fingers each) and one is showing 3 fingers.
- Top-right: Three green dice. Two are showing 5 dots and one is showing 3 dots.
- Right: Three groups of orange hash marks. Two groups have 5 marks each, and one group has 3 marks.
- Bottom-right: Two dominoes. One is purple with 5 dots on the top and 3 on the bottom. The other is blue with 5 dots on the top and 1 on the bottom.
- Bottom-left: Three hands, all showing 5 fingers.
- Left: Two ten-frames. The top one is full of 10 red dots. The bottom one has 5 red dots in the top row and 5 empty spaces in the bottom row.

A large circle is divided into six segments. In the center of the circle is the number 16 in a large, bold, red font. Each segment contains a different set of visual representations:

- Top-left: Four groups of three blue vertical lines, totaling 12 lines.
- Top-right: Two dominoes. The left one is purple with 6 dots, and the right one is yellow with 6 dots, totaling 12 dots.
- Right: Four orange dice. The top row shows 5 and 5 dots, and the bottom row shows 5 and 1 dot, totaling 16 dots.
- Bottom-right: Two groups of three green vertical lines, totaling 6 lines.
- Bottom: Two rows of orange circles. The top row has 10 circles and the bottom row has 6 circles, totaling 16 circles.
- Bottom-left: Four blue dice. The top row shows 5 and 5 dots, and the bottom row shows 5 and 5 dots, totaling 20 dots.
- Left: Five hands. Four hands are open (showing 5 fingers each) and one hand is showing 1 finger, totaling 21 fingers.

The image shows a circular activity board with a central white circle containing the number **17** in green. The board is divided into eight segments by radial lines, each containing a different representation of a number:

- Top-left: Four orange dice showing 5, 5, 5, and 5 dots.
- Top-right: Two ten-frames of blue dots. The first frame is full (10 dots), and the second frame has 7 dots (5 in the top row, 2 in the bottom row).
- Right: Three groups of orange tally marks. The first two groups have 5 marks each, and the third group has 3 marks.
- Bottom-right: Five hands. Four hands are open (showing 5 fingers each), and one hand is showing 3 fingers.
- Bottom: Two ten-frames of red dots. The first frame is full (10 dots), and the second frame has 7 dots (5 in the top row, 2 in the bottom row).
- Bottom-left: Two purple dice showing 5, 5, 5, and 5 dots.
- Left: Two groups of blue tally marks. The first group has 5 marks, and the second group has 7 marks.

The image shows a large circle divided into six segments. In the center of the circle is the number 18 in a large, blue font. Each segment contains a different set of visual representations:

- Top-left: Four blue dice faces, each showing 4 dots, totaling 16 dots.
- Top-right: Two dominoes. The left one is purple and shows 6 dots on the top and 6 dots on the bottom. The right one is blue and shows 4 dots on the top and 4 dots on the bottom, totaling 20 dots.
- Right: Two groups of green circles. The top group is a 2x5 grid (10 circles). The bottom group is a 2x6 grid with one empty space (11 circles).
- Bottom-right: Five hands. Four hands are fully open (showing 5 fingers each), and one hand is showing 3 fingers, totaling 23 fingers.
- Bottom: Two groups of orange circles. The top group is a 2x5 grid (10 circles). The bottom group is a 2x6 grid with two empty spaces (10 circles).
- Bottom-left: Three groups of red tally marks. The first group has two groups of 5 marks each (10 marks). The second group has one group of 5 marks and one group of 3 marks (8 marks).

The image shows a circular activity board with the number 19 in the center. The board is divided into eight segments, each containing a different representation of a number. The goal is to match the correct number to the central 19.

Central number: 19

Segments and their contents:

- Top-left: A 2x5 grid of red dots (10) and a 1x5 grid with 4 red dots (4).
- Top-right: Four hands showing 5, 5, 5, and 4 fingers (19).
- Right: Four green dice showing 5, 5, 5, and 5 faces (20).
- Bottom-right: Two dice showing 10 and 10 faces (20).
- Bottom: Two rows of blue dots, each row containing 10 dots (20).
- Bottom-left: Four hands showing 5, 5, 5, and 4 fingers (19).
- Left: Four groups of vertical lines, each group containing 5 lines (20).
- Bottom-left: Four orange dice showing 5, 5, 5, and 1 faces (16).

A large circle is divided into eight segments by a central circle and four radial lines. In the center of the large circle, the number **20** is written in large, bold, red font. Each segment contains a different visual representation of a number:

- Top-left: Two rows of five orange circles each, totaling 10 circles.
- Top-right: Four yellow dice showing 5, 5, 5, and 5 dots, totaling 20 dots.
- Right: Two rows of five green circles each, totaling 10 circles.
- Bottom-right: Four hands, each with five fingers, totaling 20 fingers.
- Bottom: Two purple dice showing 5 and 5 dots, and one orange die showing 5 dots, totaling 15 dots.
- Bottom-left: Four pink dice showing 5, 5, 5, and 5 dots, totaling 20 dots.
- Left: Two groups of five blue hash marks each, totaling 10 hash marks.
- Top: Two rows of five orange circles each, with one additional orange circle below the first row, totaling 11 circles.
