INSTRUCCIONES

OBJETIVO GENERAL:

Mejorar o desarrollar la conciencia léxica.

Entendemos por conciencia léxica la capacidad para manipular las palabras que componen una frase. A través de estas actividades de conciencia léxica se pretende que el niño/a sea capaz de entender que las oraciones están formadas por palabras y adquirir de esta forma habilidades que le permitan segmentar una oración en palabras, así como ordenar palabras para formar oraciones. Desarrollar una buena conciencia y atención sobre los elementos que componen los mensajes orales repercute no sólo en la competencia comunicativa, sino también evitando posibles errores en la escritura (orden de los elementos de la oración, concordancia de los elementos que la componen, fragmentaciones y uniones de palabras, etc).

OBJETIVO ESPECÍFICO:

Ordenar palabras para formar oraciones.

DESARROLLO DE LA ACTIVIDAD:

Se presenta una ficha con cuatro palabras representadas mediante pictogramas y un código de color para cada tipo de palabra. (Usando el código de color, comenzamos a hacer a los niños/as conscientes, de forma indirecta, de las distintas funciones que tienen las palabras y que posteriormente, les ayudará a clasificarlas. De momento no se les va a explicar los tipos de palabras).

Primero el alumno/a tendrá que ordenar dichas palabras colocando debajo, dentro de cada círculo: primera, segunda, tercera o cuarta; dependiendo del orden de cada palabra dentro de la oración.

Una vez ordenadas las palabras, habrá que rodear cuál es el dibujo que se corresponde con la oración correcta de los que aparecen en la parte inferior.
