Como crear un minibook.

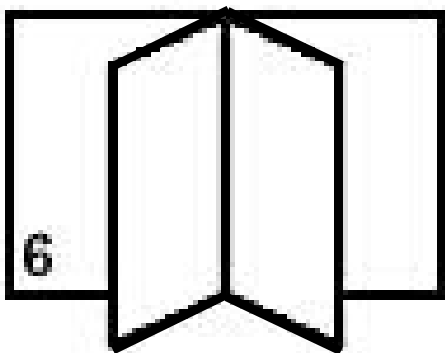

Dobla la hoja siguiendo las siguientes instrucciones, de tal manera que al abrir de nuevo el papel queden **8 rectángulos**.

Dobla la hoja como indica el dibujo dejando la **parte cerrada** abajo. Corta hasta la **mitad** de la hoja.

Empuja de los extremos hacia el centro, de tal manera que se forme un **cuadrado** hueco en el centro. Sigue empujando hasta que se junten todos los rectángulos.

¡Y YA TIENES
EL MINIBOOK!
