Comparto con vosotros este libro móvil para crear frases con pictogramas, con estructura morfosintáctica sujeto + verbo (sólo la tercera persona) + complemento, utilizando los determinantes correspondientes en cada caso. Los colores que he utilizado son los que utiliza el programa Enseñame a hablar: Determinantes: azul; sujetos: verde; verbos: rojo; complementos: amarillo. ¡ Espero que os sea útil!

Aquí podéis ver cómo queda. Podéis adaptar la longitud de las oraciones utilizando tantos elementos como deseéis, yo comenzaré sólo con sujeto y verbo (he añadido diferentes determinantes: artículos, posesivos y demostrativos). Como consejo, he utilizado un sobrante de plástico y lo he puesto al final, de manera que me sirve de tope para que sea más fácil utilizarlo. ¡ Espero que os haya gustado!
