

¿Cómo se utiliza este material?

En este material llamado "EL SUPERMERCADO" les indicamos a los alumnos una serie de compras que tienen que realizar para una situación, después los alumnos deberán de seleccionar 5 PRODUCTOS y rellenar el ticket dónde realizarán la suma de los productos que han metido en su carro. Esta actividad la podemos completar dando a los alumnos unas monedas y billetes y que trabajen con ellos calculando lo que tienen que devolver, o dándoles un presupuesto y que se administren.
