The image shows two rows of a math activity. Each row is contained within a blue rounded rectangle with a dashed border. The background of these rectangles is a pattern of small, faint insect drawings. The top row has three boxes: the first contains the number '36', the second is empty, and the third contains the number '4'. A red ladybug is positioned between the first and second boxes. The bottom row also has three boxes: the first contains the number '80', the second is empty, and the third contains the number '80'. Two yellow and black bees are positioned between the first and second boxes, and between the second and third boxes.
